

## FAQ

**How have we responded to COVID?** All our in-person didactics were paused, and we went to pre-recorded lectures. A few new rotations were started and some changes were made in rotations locations.

**Do you have call?** We do have call on our CCU rotations in Bristol and the pediatric rotation in Charleston, WV.

**Is your program unopposed?** 95% of our residency rotations are unopposed.

**What is your board pass rate?** Our program has a board pass rate of 99%.

**What are a few notable strengths of your program?**

- o We allow for your training to match your professional ambitions.
- o We can utilize your electives/medical selective rotations to focus on your area of interest whether it be hospitalist, outpatient provider, or fellowship such as sports medicine or geriatrics.
- o In this program, the training provides the best of both worlds. You train in rural medicine, providing care for see underserved patients with a variety of medical issues. You also get experience in out tertiary hospitals in CCU, cardiology and trauma services. You will see a variety of everything while you are here.
- o Our residents are our biggest asset to the program. We pride ourselves on having a close knit residency with a feeling of a family atmosphere.
